	4	Labor Day	01.05.	8	Saint Andrew	29.11 - 30.11.			

GENERAL RULES FOR ABNORMAL TRANSPORTS

Single Transport Permit	Length	Width	Height	Weight
Permit at the border*	Up to 25.00m	Up to 4,50m	Up to 4,50m	Up to 60 tons
1 escort	25.01m - 30.00m	3.21m - 4.50m	Over 4,51m	Over 80 tons
2 escorts	Over 30.01m	Over 4.51m	Over 4,51m only on highways	Over 80 tons only highway
Convoy	Maximum convoy length is 75m, with at least 10m distance between each truck; 2 escorts and police escort (max. 3 trucks in convoy)			
Police escort	Over 40.01m	Over 5.01m	over 5,01m	Over 80 tons
Road Survey***	between 25m-50m	between 3.50m – 7.00m	more than 5,01m	
Bridge Inspection**				60 tons
Multiple Transports Permit	Maximum dimensions: 25.00 x 3,20 x 4.00 – 60 tons	Validity : 90 days or 12 months		
Permit For Transports With Divisible Goods	Maximum dimensions: 19.50 x 3,00 x 4.00 – 50 tons			

Observation:

- * - except border RO/BG Calafat/Vidin: no weight bridge, permit must be arranged in advance and delivered to the border
- ** - Bridge Inspection is also needed when we have to drive on roads that exceed the restriction and we haven't any other road variant
- *** - Road Survey is necessary also if width is higher than restriction on a certain road segment.

Permit Time Approval:

- Permits up to: 25.00 x 3.20 x 4.50 – 60.00 tons – 5 working days
- Permits higher than: 25.00 x 3.20 x 4.50 – 60.00 tons – 4 working days (transport requires escort)
- Permits higher than: 40.00 x 5.00 x 5.00 – 80.00 tons – 7 -10 working days (transport requires escort and police escort)

Permanent permit is calculated like this:

- 1000 km/month on the type of road with highest rates/km on axles pressures.
- So, if axles weights will be more than 6.00 ton/axle, permanent permit will have prohibitive cost. In that case it's better to arrange single permit.
